CAREER OBJECTIVE

Motivated B.Sc. Artificial Intelligence and Machine Learning student with hands-on experience in Web Development, Flutter Development, and AI/ML application building. Skilled in problem-solving and software development, with a strong ability to design and build scalable, user-friendly applications. Seeking an entry-level role in AI/ML, Web Development, or Flutter Development to apply technical expertise, contribute to impactful projects, and grow through continuous learning.

EDUCATION

B.Sc. Artificial Intelligence and Machine Learning | CGPA: 7.5 | 2024 – Present

Rathinam Global Deemed to be University

Higher Secondary Certificate (HSC) | 84% | 2023 – 2024

R.N. Matriculation Higher Secondary School

Secondary School Leaving Certificate (SSLC) | 2020

Oxford Matriculation School

TECHNICAL SKILLS

Programming Languages: Dart | Python

Flutter: Flutter | Widgets | StatefulWidget | StatelessWidget | Navigation | REST API | JSON

Machine Learning: Machine Learning | Deep Learning | Data Analysis

Web Technologies: HTML, CSS

Database: MySQL

Libraries: NumPy | SciPy | Scikit-learn

Tools: Git | GitHub | Android Studio | VS Code | Jupyter Notebook | MS Excel

Soft Skills: Problem Solving | Teamwork | Leadership | Communication | Critical Thinking

INTERNSHIPS

Artificial Intelligence Intern | CYFOTOK INFOSEC | 2025

- Worked on AI and Machine Learning concepts in a practical, industry-oriented environment.
- Gained hands-on experience in data analysis and intelligent system development.

Cyber Security Analyst Intern | Tata Forage | 2024

- Performed threat analysis and risk assessment to identify and evaluate potential security vulnerabilities.
- Applied industry risk-management frameworks to strengthen organizational security posture and support incident-response readiness.

PROJECTS

Smart Task Management System (Web Application)

- Developed a responsive Task Management Web App (HTML, CSS, Vanilla JS) with drag-and-drop task management, search, filtering, priority levels, due dates, dashboard statistics, LocalStorage offline persistence, and a glassmorphism UI with dark/light mode.
- Technologies: HTML5, CSS3, JavaScript (ES6), LocalStorage, Responsive Web Design.

To-Do Application (Flutter)

- Developed a Flutter-based To-Do application that allows users to add, complete, and delete daily tasks.
- Implemented state management using StatefulWidget and setState() for dynamic UI updates.
- Technologies: Flutter | Dart | StatefulWidget | ListView | TextField

Emotion Detection System

- Developed a real-time facial emotion detection system (Deep Learning, Computer Vision) with face detection, image preprocessing, and DeepFace/OpenCV-based classification, detecting Happy, Sad, Angry, Neutral, Surprise, Fear, and Disgust from webcam input.
- Technologies: Python, DeepFace, OpenCV, TensorFlow, Machine Learning.

CERTIFICATIONS

- IBM Python for Data Science and AI
- Deep Learning with PyTorch: Image Segmentation
- Elements of AI
- Machine Learning for Beginners
- Yuva AI for All
